

# PRECIOUS EDMUND

Lagos, NG | +2348148551915 | [edmundprecious23@gmail.com](mailto:edmundprecious23@gmail.com) | [LinkedIn Link](#) | [Github Link](#)

## EDUCATION

Federal University Of Technology Oye, Ekit  
B.Eng Electrical Electronics Engineering *Graduation Date: Nov 2023*

The Polytechnic Ibadan Ibadan, Oyo State  
HND, Electrical Electronics Engineering *Graduation Date: Oct 2017*

## WORK EXPERIENCE

**SVerse NG** **Lagos, NG**  
*Cloud Administrator* *Sep 2023 - Present*

- Administer Kubernetes (K8s) clusters for container orchestration and management. Utilize Helm for packaging and deploying applications within Kubernetes. Ensure high availability, scalability, and resilience of containerized applications.
- Continuously monitor the performance of cloud resources and applications. Identify bottlenecks, troubleshoot issues, and implement optimizations to improve performance and reliability. Conduct root cause analysis and implement preventive measures to avoid recurrence.
- Monitor and optimize cloud expenditure by analyzing usage patterns and implementing cost-saving measures. Provide regular reports on cloud spend and recommend strategies to reduce costs without compromising performance.

Tek Experts Victoria Island, Lagos  
Cloud Support Engineer (Azure) *Apr 2022 - Sep 2023*

- Providing assistance via email and phone to Azure clients with regards to Cloud Service, Azure Resource Manager, Azure API Management Service, Azure Policy, and Azure Batch cloud.
- Collaborating with other Azure technology teams to provide support to customers of my technology as well as those of other Azure technologies.
- Utilize Infrastructure as Code tools like Terraform or AWS CloudFormation to automate the provisioning and management of cloud resources. Develop and maintain IaC templates for repeatable and scalable deployments

Perfection Motors Ikeja, Lagos  
Backend Engineer | .Net Technologies: [ASP.Net](#) Core *Sep 2020 - Nov 2021*

- Experienced in implementing a cloud-native microservices architecture on Azure, resulting in improved scalability and reduced maintenance costs
- Developed and Maintained .NET Applications using [ASP.Net](#), C#, and the .Net Framework.
- Designed and implemented RESTful APIs using [ASP.NET](#) Web API, enabling seamless integration with various client applications.

## PROJECT EXPERIENCE

Sverse NG **Lagos**  
[Cloud Orchestration with Kubernetes](#)

- Enabled efficient allocation and management of compute resources across containers, optimizing utilization and minimizing idle resources
- Facilitated easy scaling of containerized applications based on demand, leveraging auto-scaling features to dynamically adjust resources as needed
- Service Discovery and Load Balancing

Cloud Migration and Infrastructure Optimizations

- Designed and implemented an architecture for scalable and highly available cloud-based applications
- Utilized infrastructure-as-code tools like Terraform, ARM, and BICEP to automate the provisioning of cloud resources
- Optimized the infrastructure for cost-efficiency and performance, leveraging cloud-native services

**SERVICE EXPERIENCE**

---

National Youth Service Corp Ido-ani, Ondo

Community Development Service Chairman *Jul 2018 - Jul 2019*

- Led a team of volunteers as Community Development Service (CDS) Chairman to implement community projects and programs in line with the objectives of the National Youth Service Corps (NYSC) scheme.
- Planned and organized community development projects, including education, healthcare, sanitation, and environmental conservation, in collaboration with relevant stakeholders and community leaders
- Mobilized community members to participate in various community development programs, including sensitization campaigns, workshops, and trainings, to improve their socio-economic well-being.

Federal Government College Ido-ani Ido-ani, Ondo

Corper's Liason Officer *Jul 2018 - Jul 2019*

- Served as the liaison officer between the National Youth Service Corps (NYSC) members and the management of a federal government college, ensuring effective communication and collaboration between both parties.
- Coordinated the orientation and induction of new corps members, providing them with information on the policies, procedures, and expectations of the school.
- Facilitated regular meetings and feedback sessions between the school management and the corps members, providing a platform for constructive dialogue and problem-solving.

**SKILLS**

---

**Programming Languages:** C#, Python, SQL, Bash, JSON, XML, YAML

**.Net TEchnologies:** ASP.Net, ASP.Net Core, Entity Framework, .Net Framework

**Cloud Platforms:** Microsoft Azure, AWS, Google Cloud Platform

**Cloud Services:** Azure App Services, Azure Functions, Azure Storage, AWS Lambda, AWS S3, AWS EC2

**DevOps Tools:** Azure DevOps, Jenkins, Git, Docker, Grafana, Splunk, Helm, K8, Terraform, GIT, Gitlab
